Kycon adds IP67 options to their USB Type C connector line

Morgan Hill, CA – Kycon, Inc. expands their USB series by adding IP67 options to their Type C product line. With a 10Gbps data rate, USB 3.2 Gen 2 can handle significantly faster data transfer than the standard USB 2.0 and 3.0 products. The IP67 rating is perfect for devices that require a safeguard to harsh environments. We offer both a mid-mount option and a top mount option (hybrid contacts) to suit whatever your application requires. All parts are in tape and reel packaging, include the gasket and are compliant with the current RoHS (3) and REACH (201) standards.

Key Specifications:

- IP 67 rated
- USB 3.2 Gen 2
- High Temperature plastics
- Meets USB Type C[®] Specification
- Tape and Reel packaging for assembly ease
- Gasket included
